Shisha

Shisha & Charcoal

\$10.00

Shisha (*hookah*) have been used to smoke tobacco by the indigenous people of Africa and Asia for at least four centuries. the Shisha was invented in India by a physician during the reign of emperor Akbar (who ruled from 1556 to 1605) as a purportedly less harmful method of tobacco use. the physician hakim Abdul Fath suggested that tobacco "smoke should be first passed through a small receptacle of water so that it would be rendered harmless". following popularity among noblemen, this new device for smoking soon became a status symbol for the Indian aristocracy and gentry, as they believed unsubstantially that the practice was relatively safe.
